Registration fees (incl. Swiss Vat.)

ESCI member	EUR 480.00	<input type="checkbox"/>
Non member	EUR 630.00	<input type="checkbox"/>
Non member with new membership	EUR 760.00	<input type="checkbox"/>
Onsite rate	EUR 730.00	<input type="checkbox"/>
Delegates of invited countries KOR, JPN, SGP.	EUR 280.00	<input type="checkbox"/>
Student (confirmation required)	EUR 280.00	<input type="checkbox"/>
Swiss Galadinner only (without congress fee)	EUR 150.00	<input type="checkbox"/>
Accompanying partner side program	EUR 50.00	<input type="checkbox"/>

The registration fee includes:

- Admission to all scientific sessions
- Admission to the industrial exhibition and "Meet and Greet the Implants"
- Free shuttle service airport, congress, ESCI hotels
- Congress bag
- Food & Beverages during the congress
- Welcome Reception
- Swiss Galadinner

I will join

Thursday, 10. Oct. 19:30 Welcome Reception number of persons _____ (free for all)

Friday, 11. Oct. 19:30 Swiss Galadinner number of persons _____

Swiss Galadinner is free for registered attendees, any additional accompanying persons must be separately registered for the "Swiss Galadinner only"

ESCI provides exhibitors with a list of registrants prior to and after the meeting. Check here if you want to be excluded from that list.

Payment Methods

Payment of registration fees (in EUR) can be made as follows:

1. Online registration www.esci-online.com / Credit Card: Visa, MasterCard or American Express

FACTS of CERAMIC Implants

Dear Ladies and Gentlemen,
Dear Colleagues, dear ESCI Members and Partners,

Ceramic dental implants have evolved from a rather marginal phenomenon to a serious factor in dental implant therapy. Currently, it is one of the fastest growing, most research intensive and innovative areas in dentistry. Therefore, a scientific and evidence-based approach of this topic is of utmost importance!

Thus we are pleased to host the
1st European Congress for Ceramic Implant Dentistry
of the European Society for Ceramic Implantology ESCI, titled
"Facts of Ceramic Implants"

We are particularly proud that we have succeeded in gathering 14 renowned speakers from 7 different countries, who all have the highest level of expertise. We were able to put together a program that is unique in the field of ceramic implantology.

"Facts of Ceramic Implants" will provide both, the interested beginners and the experienced users with valuable new insights into the successful application of ceramic implants as an additional and reliable therapy alternative to the established titanium implants. Besides material related possibilities and limitations of zirconium dioxide, also the biological background and the professional clinical applications will be highlighted.

But sometimes we need to have a break to make progress. Just 10 minutes from Zurich, in the middle of the green countryside, the Bocken estate, the official congress center of Credit Suisse, not only provides an inspiring environment for this high-profile congress topic, but also makes it possible to get free from everyday life and exchange ideas. Thus, in addition to the professional program, the location and the social framework of this congress will be something extra ordinary... Your personal well-being is very important to us.

Be our guest at the 1st European Congress for Ceramic Implantology...!
We are looking forward to meeting you...!

Dr. Jens Tartsch
President ESCI

Dr. Stefan Röhling
Vice-President ESCI

Scientific Program

Chapter 1: "biomaterial ceramic"

Chair: Prof. Michael Payer

Prof. Corrado Piconi, ITA
Institute for the science and technology of ceramics, Rome, Italy
Zirconia in dental implants: an overview

Prof. Jérôme Chevalier, FRA
Institut national des sciences appliquées de Lyon, France
Low temperature degradation as aging of zirconia - does it effect biomechanical stability?

Prof. Jens Fischer, CH
University of Basle, Switzerland
Are zirconia oral implants biomechanically reliable?

Prof. Mutlu Özcan, CH
University of Zurich, Switzerland
Choice of reconstruction materials for zirconia implants

Chapter 2: "biological aspects"

Chair: Prof. Michael Gahlert

Prof. Daniel Olmedo, ARG
University of Buenos Aires, Argentina
Titanium and corrosion - fact or vision?

Dr. Brigitte Altmann, GER
University of Freiburg, Germany
Zirconia implant surface topography changes: Possibilities and risks

Dr. Simone Janner, CH
University of Berne, Switzerland
Evidence of hard- and soft tissue integration of zirconia

Dr. Stefan Röhling, GER
University of Basle, Switzerland
Zirconia implants and peri-implant infections

Chapter 3: "clinical aspects"

Chair: Dr. Stefan Röhling, Dr. Jens Tartsch

Prof. Michael Payer, AUT
University of Graz, Austria
Zirconia implants and clinical long-term results

Dr. Andre Chen, POR
University of Lisbon, Portugal
From immediate to delayed implant placement with zirconia implants

Dr. Goran Benic, CH
University of Zurich, Private Dental Clinic Lugano, Switzerland
Ceramic implants and bone augmentation

Dr. Bernd Siewert, ESP
Clinica Somosaguas Madrid, Spain
Options in prosthetic full arch reconstruction with PEEK

Simultaneous Translation EN-DE, DE-EN

Prof. Michael Gahlert, GER
Private Dental Clinic Munich, Germany
How advances in ceramic implants have benefited my patients and practice

Dr. Curd Bollen, NL
Private Dental Clinic Eyckholt, Netherlands
The step from titanium to ZrO₂ ...if I start on Monday

Dr. Urs Brodbeck, CH
Private Dental Clinic Zurich, Switzerland
Moderation open stage forum "Ceramic in Focus"

Prof. Ralf Kohal, GER
University of Freiburg, Germany
Scientific chair

Call for abstracts and patient cases

The ESCI is a hub for outstanding scientific research and clinical experience in ceramic implant dentistry. The ESCI offers the unique opportunity to young researchers and to all ESCI members to present their research results and their clinical cases during the "short lecture sessions" on the ESCI congress.

Find out more and submit abstracts on
www.esci-online.com

Invited countries

The ESCI is the leading European hub for scientific and clinical expertise in the field of ceramic implant dentistry. We are delighted to share the "Facts of Ceramic Implants" also outside of Europe.

We are honoured to invite our colleagues from
Korea, Japan and Singapore
as guests to the 1st ESCI congress

"Meet and Greet the Implants"

Come in touch with the "special material" ...Learn more about the practical "Facts of Ceramic Implants" and the different ceramic implant systems on site at the "Drill Ground". While attending the hands-on, the participants make themselves familiar.

BienAir and ESCI Company Partners will welcome you during all session breaks

Sightseeing program

Discover Zurich and the famous Lake of Zurich! Accompanying partners will get a breath-taking boat trip to Zurich and a guided experience of the middleaged old town and its astonishing historic stories.

ESCI General Assembly

Join as ESCI member the first General Assembly. The Board of Directors will present an overview of current projects of the ESCI and disclose the accounts.

Welcome reception

You plan to arrive already on Thursday? Great idea! The ESCI invites you to a special opening in the old wine cellar of the congress location "Landgut Bocken"!

ESCI Swiss Galadinner

Switzerland is a unique country with a lot of culture and outstanding haute cuisine. Spend an unforgettable evening with the ceramic community, join the
ESCI Swiss Galadinner and be surprised!
