Spreitenbach, 8 February 2024

Communication

Dentalpoint AG becomes CeramTec Switzerland LLC

Due to the renaming, Dentalpoint AG, based in Spreitenbach (CH), and its distribution company Dentalpoint Germany GmbH, based in Lörrach (DE), will be given new names:

- Dentalpoint AG (based in Spreitenbach, Switzerland) becomes CeramTec Switzerland LLC (in German: CeramTec Schweiz GmbH)
- Dentalpoint Germany GmbH (based in Lörrach, Germany) becomes CeramTec Dentalvertriebs GmbH

The renaming serves as a visible sign of the unity of the companies within the CeramTec Group and emphasises their common values and future.

A change in corporate appearance has already been visible in some areas since the end of last year. The adjustments will be made successively and should be completed soon.

As the successor to Dentalpoint AG, CeramTec Switzerland LLC with the established Zeramex® brand is a leading competence centre for high-quality and customised metal-free dental solutions made in Switzerland.

For any questions, please contact the CeramTec Switzerland communications team at +41 44 542 41 72.

About CeramTec

With over 100 years of development and production experience, CeramTec holds a leading position worldwide in the manufacture of advanced ceramics and uses these materials in a wide range of applications. Today, our portfolio includes well over 10'000 different products, parts and components made of technical ceramics as well as a variety of ceramic materials. CeramTec employs over 3'680 people worldwide, including around 2'000 in Germany and Switzerland. [> More about CeramTec](#)
